---

The bearer of this document, travelling on Qantas/Jetstar Group aircraft, has been issued Dangerous Goods Operator (Airline) Approval to carry lithium ion batteries, including up to two spares, for a collapsible mobility aid provided the following are met.

**CARRIAGE REQUIREMENTS (will be verified by a Customer Service Agent/Officer at Check-In)**

**Mobility Aid Battery**

1. You must remove the battery/batteries from the mobility aid.
2. All the terminals must be individually protected to prevent short circuiting, e.g. taped.
3. The battery(s) must be in a protective pouch.
4. During check-in, you must advise the Watt hour (Wh) rating of each battery.
5. Removed battery(s) are only permitted in carry-on baggage.
6. You **must** present this Approval to a Customer Service Agent/Officer every time you check-in.

**Spare Battery**

1. All the terminals must be individually protected to prevent short circuit e.g. taped.
2. Each battery must be in a protective pouch/bag.
3. Spare batteries are only permitted in **carry-on** baggage.

**For Australian Domestic Travel Only**

A single and/or spare battery can exceed 300Wh (as per CASA Instrument DG.0061-0).

As the passenger, it is your sole responsibility to ensure any additional international/national requirements and any other operator (airline) approvals are obtained prior to travel.

Enquires may be directed to Group Dangerous Goods.
